

john lennon

Beardo

(La la la) (La la la) (La la la) Without you I'd be all alone
 (La la la) Without you I'd be all alone
 (La la la) Without you I'd be all alone
 (La la la) Say without you I'd be all alone
 (La la la) Without you I'd be all alone
 (La la la) Say without you I'd be all alone
 (La la la) Without you I'd be all alone (La la la)
 Say without you I'd be all alone
 (La la la) Say without you I'd be all alone
 (La la la) Say without you I'd be all alone
 I keep hearin'
 That the end is nearin'
 Every other week there's another villian
 John Lennon tried to help stop the killin'
 The sorry thing is that nobody listened
 The city and country they divided
 They pointin' their fingers
 Their callin' each other liar

[illegible]

(La la la) Say without you I'd be all alone
(La la la)
