I Got You

Thompson Square

A car's got gasoline to run, down the road
A crop's got rain, dirt and sun, to make 'em grow
A song's got rhyme, a clock's got time
You got me and baby[Chorus]
I got you
Yeah you're it, the missing piece that makes me fit
I got you, the breath I breathe, and there ain't nothing else I need
Baby I got you,
Yeah, yeah, yeah, yeahI don't need a big ole house, full of stuff
What my arms are wrapped around, that's enough
Your morning smile, your kiss goodnight
And everything's alright[Chorus]When the right goes wrong
When I'm scared to death and got nothing left to lean on, 'causeI got you
Yeah, yeah, yeah, yeah
Yeah I do
Baby I got you
Yeah, yeah, yeah
Yeah, you got me to[Chorus]Yeah baby
I got you
Yeah yeah yeah yeah
Baby I got you
Baby I got you
