

Send in the Clowns

Kill Your Idols

A badge glimmering in the night.
A fascist strips you of your right
what gives Them the right to treat us this way
when tables turn the pigs will pay Redneck mentality with a gun
they're out to wreck what we call fun
sometimes the cops can really bring you down
he's not a cop he's a fucking clown Reprehensible acts in the name of the state
they're the system its us they hate
stand up to them we've got your rights
we out number them if your ready to fight Redneck mentality with a gun
they're out to wreck what we call fun
sometimes the cops can really bring you down
he's not a cop he's a fucking clown
