

Come On Home

Steve Oliver

Doesn't matter if this day goes wrong
Doesn't matter when it seems so long
Because I am holding something right in
my heart for you

Doesn't matter if the clouds move in
Wouldn't matter if I sink or swim
Because on the other side of my life
there is me and you

Come on home to me
Let me surround you with loving arms
Come on home and see
Together is all we need, come on home

Doesn't matter if the sun don't shine
Wouldn't matter if there are hills to climb
Because in between the lines that we
draw there is me and you
I know this world gets crazy
It's so hard to see the truth
But when we are together everything
is always new
Never doubt the limits of love and life
Wrap yourself in this incredible high
