Beautiful People

Supergrass

When you look out at night
You are surrounded by people
Cracked in the heat again
Dead on their feet again peopleRings all around their eyes
Flashin' their whitest lies
Takin' their medicine
Untill they're all out of time
People
PeopleWhat does it say to you
When you can't face all those people
You could run out of friends
Faster than makin' them
Out on your own again
Now you don't know how to
Feel
FeelWhen you're lookin' for reason
And findin' confusion
You're caught in the crossfire
Learnin' to thrill
Well there's gotta be some way
Out of the grooveNow you're caught in a mid some
Spinnin' your laughter
Feelin' your backbone
Turn into glue
And I wanna be somethin'
PeopleWhen you look out at night
Are you surrounded by people
Cracked in the heat again
Dead on their feet again
Takin' their medicine
'Till they're all out of time
People
PeopleWhen you're lookin' for reason
And findin' confusion
You're caught in the crossfire
Learnin' to thrill
Well there's gotta be some way
Out of the grooveNow you're caught in a mid some
Spinnin' your laughter

Feelin' your backbone
Turn into glue
And I wanna be somethin'
People
People
