Reason I Live

Big Dismal

You are the reason for my life
You help me carry on
And You are the reason that I live
When nothing seems to work out right
You're right there by my side
You always show me the lightYou give me strength when I can't find it on my own
You make sense of this crazy world
You gave Yourself when there was nothing left to give
And You are the reason that I liveAnd when I'm feeling cold inside
You're there to keep me warm
I know I can't go on without You
And when we're far apart
My heart cries out for You
It knows that I have fallenYou give me strength when I can't find it on my own
You make sense of this crazy world
You give Yourself when there was nothing left to give
And You are the reason that I liveIt keeps growing stronger more and more each day
I never dreamed that I could feel this way
About anyone, I don't want this to end
I know that right begins here with YouYou give me strength when I can't find it on my own
You make sense of this crazy world
You give Yourself when there was nothing left to give
And You are the reason
(You are the reason)You are the reason
(You are the reason)
You are the reason that I live
