Don't Stop Now

Bang Tango

Get the message, get it right
What you got, want to give it a try?
You take it easy, you make it hard
One chance for a good, good causeShe walked up to me and tried to tell me
That what I'm doing is not so fine
I'll tell you something baby, where you're headed?
Through that door, you're gonna do you timeGet it up, get it out, push it up, spit it out
It does on and on and it won't stop now
Get it up, get it out, push it up, spit it out
It goes on and on and it won't slow down
Get it up, get it out, push it up, spit it out
It goes on and on, don't slow downLock you door, lock you door
Slam it tight, hit the floor because I might bite
You take it easy, you make it hard
One chance for a good, good causeYou crawled up to me and tried to tell me
That what I'm doing is not so fine
I'll tell you something baby, start your praying
Because right here now we're going to draw that lineGet it up, get it out, push it up, spit it out
It goes on and on, don't slow down
Get it up, get it out, push it up, spit it out
It goes on and onShe walked up to me and tried to sell me
Something baby that you know I can't buy
Say it right now while you're begging
There's no second chance, it's you last tryGet it up, get it out, push it up, spit it out
It goes on and on and it won't slow down
Get it up, get it out, push it up, spit it out
It goes on and on and it won't slow downGet it up, get it out, push it up, spit it out
It goes on and on, don't slow down
Get it up, get it out, push it up, spit it out
