Starquake

Night Frog

You donâ€™t even know what itâ€™s like
To wake up screaming at night
The fuzz it lingers
Go away, I gotta fight

Like a Starquake
Erupted in my brain
The static of the wave
Making me feel insane

You probably donâ€™t even think of me
Everyday youâ€™re screaming in agony
Bombs exploding in my head
A total destruction
Will it end?

Like a Starquake
Erupted in my brain
The static of the wave
Making me feel insane

All I want in my mind
Whoâ€™s controlling
The demons inside

Like a Starquake
Erupted in my brain
The static of the wave
Making me feel insane

Like a Starquake
Erupted in my brain
The darkness of the flame
Can you feel my pain?
