

Black Eye

Steel Train

Oh, black eye, you show me in a painting
A buildings in chrome
Well, don't take that pill and I'll take you home
Oh, I said come on and realize one day you're gonna die
Oh, break free, we'll be back before the weekday
Your dad will never know
That you took the pill and I saw the road
When the chemicals are in, I said, one day you're gonna die
Oh, blow up, well, I got a miracle
And you wanna know why
You are a home and I am on fire
When the chemicals are in, I said, one day you're gonna die
Black eye, you hit, black eye, on me
I said, and I am your trampoline
I am your tra-tra-tra-trampoline
Oh, black eye, you show me in a painting
A buildings in chrome
Well, don't take that pill 'cause I'll take you home
Oh, I said come on and realize that we can never die
Black eye, you hit, black eye, on me
I said, take the pill and I'll watch you sleep
Drive all night and you let me free
I said, I'll tell you one more time you're never gonna be
I am your trampoline
