

# This World

## Zero 7

Another child is born  
Another race is won  
Another dream is shattered  
Another day has begunThis world is still a float  
No not in Noah's boat  
We've only lost the vision  
Of the stars we're meant to beAnother broken heart  
Another lesson learnt  
Another harvest eaten  
Another night is gone  
A new day's begun  
Even your dreams they can be realThis world is still a float  
No not in Noah's boat  
We've only lost the vision  
Of the stars we're meant to beThis world is still a float  
No not in Noah's boat  
We've only lost the vision  
Of the stars we're meant to beThis world is full of love, we still have hope  
This world is full of love, we still have hope  
This world is full of love, we still have hope
