

So What

Verbena

Seems like its been days and nothings left for me
Right now
I can walk around and see between the trees
Oh how
See that's not the way I want it
Well now
I will be and you will be and we can call its me
Right now
Its never really gonna be that much better
Cause I say so
We can try and kill the scene to make it all better
Cause I say so (X4)
Seems like its been years and I don't call the scene
Right now
I can rescue you and you can rescue me
Right now
See that's just the way I want it
Well now
I won't be and you won't be cause we can call its me
Its never really gonna be that much better
Cause I say so
Cause I say so
We can try and kill the scene to make it all better
Cause I say so
Cause I say so
Loves all fine and you can see that we can make it better
Cause I say so
Cause I say so
Cause its never really gonna be that much better
Cause I say so
Cause I say so
Cause I say so
Cause I say so
Even when the moneys gone
I want to
As you're dropping like a stone
And hold on to nothing
And hold on to nothing
