

# My Definition Of A Boombastic Jazz Style

## Dream Warriors

What the fuck is this?

My definition of a boombastic jazz style Here we go, are you ready for one other?

Dream Warriors' noise is new discover all

Once again with a new blend, so telephone a friend

(Yo, dude, I just got this new song, it's dope man) Compact disc to the prime is optimist

Fans or friends, I'm universally cosmic

Concrete jungles abound

Stand by the speakers You're smothered and covered up in the sound

You stand strong, as you pump your fist

I'm talkin' all that jazz

Now, what's my definition? My definition, my definition

My definition is this

My definition, my definition, my definition

My definition is this

My definition, my definition is this, my definition When I kick rhymes, there's somethin' said to do damage

Skin so strong, even Superman needs a hand

So bob your head-dread, as I kick the funk flow

This rhyme is subliminal, yet, you don't think so I walk with a gold cane, a gold brain, and no gold chain

Behind the truth lies, there lies a para fix

In the mix is where Dream Warriors go

Define if you will but I know so, there is no definition My definition, my definition

My definition is this

My definition, my definition, my definition

My definition is this

My definition, my definition is this, my definition Rhyme, though I know it's a flow, it's just like a poet

Your definition of me is definitely wrong

Why must I try to lie and build an alibi?

When all you ask is just for me to be me Replace a replaceable, replacement with this

Relax, relax, relaxation boombastic

My name is King Lu

(Mine is Capital Q)

Bags of mostly water search to find my definition My definition, my definition, my definition

My definition is this

(My definition)

My definition, my definition, my definition

My definition is this

My definition, my definition is this, my definition I sought beauty through the dust of strife

I sought meaning to my music addiction

Arise, awaken, we have need to reverse

A plague has befallen us, no time to rehearse  
This rhyme speaks, it's speakin', has spoken  
This rhyme will not change things  
It needs to be changed in a hearse  
You find caskets in my rhyme baskets of rhyme  
Your definition can define, then, what's my definition?  
My definition, my definition  
My definition is this  
(My definition)  
My definition, my definition, my definition  
My definition is this  
My definition, my definition is this, my definition  
Yo, where'd everybody go?
