Lewis IV

Lewis Taylor

Hey you
Talk to me
Oohhh
What kind of love affair, oohh
Have I been pulled into? Whoah baby
Baby my heart is open wide
But that's allright
I come apart should you decide
You don't want meBaby, this is the point that I've come to
Love is too dark to mention
Think I've been waiting here for you
To come and relieve the tensionCold lonely
State of mind
Do I really care?
You break your promises, baby
Don't make me stick to mine, oh please
I wanna tell you how I feel
But you're not here
No longer know just what is real
Somebody tell meOoh, this is the point that I've come to (I've been waiting)
Love is too dark to mention (For you)
Think I've been waiting here for you
To come and relieve the tensionOoohh... [Adlib]Baby my heart is open wide
But that's allright
Though I come apart should you decide
You don't want meBaby, this is the point that I've come to (Whoah yeah)
Love's too dark to mention (I've been waiting)
Think I've been waiting here for you (Oooh baby)
To come and relieve the tension (You know that I..)This is the point that I've come to (I've been waiting)
Love's too dark to mention (Waiting for you)
Think I've been waiting here for you (Whoah baby)
To come and relieve the tensionIii
Oohh Iii (I'm still waiting for you baby.
Oohh Iii (Like a fool I just keep on waiting)
