Three Words

Da Pulis

Shine in every light
More than for a day
You stayed the same, wild
And were that way
Don't you want me a whole man?
You can't pretend that you're not sentimental too
I know
I know you
Say what you will
And call me what you want
But those years you spent away

How I wish you stayed
But it's still too little too
When you start playing like you're everybody's fool
'Cause I know you, yeah
Are you still awake?
We can keep things the same
In time things fade
But why can't I really wait?
Don't you want me here so
I can offer you three words so true?
Like I know you
