

Big Dog

Lyle Lovett

Ain't no big dog coming to bite you
Ain't no bad man coming to find you
Just rest easy, we'll be home soon
You'll be sleeping in your own room Don't you worry, little one
Don't you worry, little one
Everything is gonna be alright
In the morning light Mama loves you, Daddy does too
Grandma wants you after school's through
You just be cool and rest easy
'Cause you're the king of all that you see So don't you worry, little one
Don't you worry, little one
Everything is gonna be alright
In the morning light When you're sleeping, what do you see?
Must be angels smiling at me
What did I do to deserve you?
There weren't nothing as far as I knew I'd go faster in the pasture
But in Tom ball, live the law dogs
Thirty's fine, oh, thirty-one is a crime
And they all have a gun But don't you worry, little one
Don't you worry, little one
Everything is gonna be alright
In the morning light I'd go faster in the pasture
But in Tom ball, live the law dogs
Thirty's fine, oh, but thirty-one is a crime
And they all have a gun But don't you worry, little one
Don't you worry, little one
Everything is gonna be alright
In the morning light No, don't you worry, little one
Don't you worry, little one
Everything is gonna be alright
In the morning light And everything is gonna be alright
In the morning light
