# Except For You

## Charley Pride

Except for you
I've never known what love is
Or how it feels, to have a dream come true
But now I find my world no longer lonely
And the way that it would be, except for you
One by one
You mended all the pieces
of a heart that someone broke in two
You filled my life with happiness and sunshine
That i never would have known
Except for you
You brought all the rainbow colours to a world of solid blues
And nothing prettier than rainbows, except for you
And so my love, I wanted just to tell you
This old heart wont beat again
This old heart wont beat again
This old heart wont beat again
Except you
