Independence

This Heat

Patient anticipation
Up till now I been hurry up and waiting
At a bus stop in Independence licking an ice cream cone
I've been kicking I've been scheming
This is as close as I've ever been to leaving
Five blocks away, a stone's throw from home
but I, well I'm as good as gone
I gotta get gone, gone, gone
shooting like a gun, a gun, a gun
skipping like stone, stone, stone
Far as I can run to where freedom is free
There's a road like a long gray ribbon far as I can see
And it's pulling independence out of me
Emancipation from paper chasing
Leaving the question marks with Momma's blessing
Put her picture in my pocket along with her rosary
Oh, some say I'm crazy, a little loco
and most of my friends will live and die in this zip code
It might be for me but until I go

How am I, ever supposed to know?
I gotta get gone, gone, gone
shooting like a gun, a gun, a gun
skipping like stone, stone, stone
Far as I can run to where freedom is free
There's a road like a long gray ribbon far as I can see
and its pulling independence outta me.
I'm busting out of Independence
independence busting out of me
I'm busting out of Independence
independence busting out of me x2
Well, I gotta get gone, gone, gone
shooting like a gun, a gun, a gun
skipping like stone, stone, stone
Far as I can run to where freedom is free
There's a road like a long gray ribbon far as I can see x2
And it's pulling independence out of me.
Independence.
