Everything You Know

Star Anna

Your eyes go startle, my mind goes blank
My chest is rattling, like a rattlesnake
My strength is waning, resolve is weak
The times are changing, as we speak

Your eyes crossing mine
Burns right in my eyes
The night unwinds
Everything you know, is gonna die

My heart is beating, beneath this cage
A tiger's pacing, a second stage

Your eyes crossing mine
Burns right in my eyes
The night unwinds
Everything you know, everything you know
Everything you know, is gonna die
