

# Move Me

## Sara Watkins

every step's been shown to you  
like all those years in school  
what they said is what you say  
what they saw is what you see  
you lack a clear drawn line  
partitioned and defined  
so you can rest in knowing  
everything as it should be  
but i want you to move meeeee  
want you to moooooove meeee  
want you to move meeeeeoh we got our back and forth  
we always stay the course  
taking quickly  
doesn't leave time for questioning  
so much is repetition  
we mimic old decisions  
and walk the same path  
just because we know where it will lead  
but i want you to move meeee  
want you to moooooove meeee  
want you to move meee  
want you to moooooove meeee  
but you just keep the peace  
i won't give you all i got  
cuz i fear you'll disapprove  
underlying open eyes  
the heart to follow through  
take you out and bring you back  
but you will not be moved  
i want you to move mee  
want you to mooooove meeeee  
i want you to move meeeeeee  
want you to mooooove meeeeeee  
move meeeee  
want you to move meeeeeeee  
want you to move meeeeeee  
want you to move meeeeeeeee  
ooooh-ooooh-ooh-ooh (x7 until fade out)
