

# Sweet Sweet Sunshine

## The Farm Inc.

Said the ready boy to the brown eyed girl  
Better look in your eyes says the time is right  
Let's sneak away and forget the world  
Meet me down at the river tonight  
She said baby let's go  
Where the wildflowers grow Lay a blanket on the ground  
Just me and you and a million stars  
We'll heat up when the sun goes down  
And get to close don't go to far  
We waited for this  
Since our first kiss And it feels right,  
Breathing your breath in mine  
Hold you all night  
'Til the moon melts into  
Sweet sweet sunshine Lounge hawks and tender hems  
Midnight breeze on summer swim  
It's almost more than we can stand  
Tangled up with no regrets And it feels right,  
Breathing your breath in mine  
Hold you all night  
'Til the moon melts into  
Sweet sweet sunshine Steam on the skin, feeling the heat  
Need to cool off jump in the creek  
Something this good can't be wrong  
Make a little love on me all night long And it feels right,  
Breathing your breath in mine  
Hold you all night  
'Til the moon melts into  
Sweet sweet sunshine And it feels right,  
Breathing your breath in mine  
Hold you all night  
'Til the moon melts into  
Sweet sweet sunshine Sweet sweet sunshine  
Yeah
