Across the Ocean (Instrumental)

New Empire

We could sail across the seven seas
Take you far away from the mysteries that reminds you
Of the loneliness in you heart
We could search for islands far and near
Join in creation look to hear
All the songs they've been singing all these years
Search across the oceans
For who you are been lost for too long
Searching for a secretIn coming home we find we have what we need
If my boat were ever to drift ashore would you
Come find me your ropes and oars are a beacon
That's hidden deep within my soul
So I'll bury my treasure and bury it deep
With all of my footprints I've hidden the keys
You can find them at the bottom of this seaSearch across the oceans
For who you are been lost for too long
Searching for a secret
In coming home we find we have
Search across the oceans
For who you are been lost for too long
Searching for a secret
In coming home we find
So why are we always going to waste
Pull me together and put me in place[x2]
Search across the oceans
For who you are been lost for too long
In coming home we find
Search across the oceans
For who you are been lost for too long
Searching for a secret
In coming home we find we have all we need
In coming home we find we have all we need
In coming home you'll find we have all you need
