Shattered Dreams

Khepri

Shattered dreams of days gone by
Makes me want to sit right down and cry
All the plans I had and what it turned to
Just shattered dreams
Yesterday was long ago
When I first met you, you were my dream
All in vain and it only brought me pain
Yes, in shattered dreams
Your goodbye, shattered it all
For early this morning, blues brought me a call
Now, all I have is gone and all that's left
Is my shattered dreams
Shattered dreams
Shattered dreams, baby
Shattered dreams
Shattered dreams
Shattered dreams
Shattered dreams
My shattered dreams
My shattered dreams
