Moving

Supergrass

Moving, just keep moving
Till I don't know what's sane
I've been moving so long
The days all feel the sameMoving, just keep moving
Well I don't know why to stay
No ties to bind me
No reasons to remainGot a low, low feeling around me
And a stone cold feeling inside
And I just can't stop messing my mind up
Or wasting my timeThere's a mow, low feeling around me
And a stone cold feeling inside
I've got to find somebody to help me
I keep you in mindSo I'll keep moving, just keep moving
Well I don't know who I am
No need to follow
There's no way back againMoving, keep on moving
Where I feel I'm home again
And when it's over
I'll see you againGot a low, low feeling around me
And a stone cold feeling inside
I just can't stop messing my mind up
Or wasting my timeThere's a mow, low feeling around me
And a stone cold feeling inside
I've got to find somebody to help me
I keep you in mind
