

# Cool Running

Boz Scaggs

Oh hoo hoo  
Hot night she's running right  
And magic's in the air  
So what do I care

The one in red straight ahead  
Sets my soul on fire  
We're taking it higher

The message from the coast is loud and clear  
Cool running  
The second I get off I'm out of here  
Cool running yeah  
Oh hoo

Aim south we're chilling out  
The boss is on the phone  
Tell him I'm gone

That's right Snow White  
We're blowin' the blues away  
Call 'em back another day

Got no time for talkin' to no phone  
Cool running yeah  
We'll send them all a postcard from the zone  
Cool running yeah

You see Miss it's like this  
We're about to lose control  
Well it beats getting old  
Hey

Predictions for the coast say bright and clear  
Cool running yeah  
The forecast for my head is out of here

Cool running yeah

The message from the coast is loud and clear

Cool running  
The second I get off I'm out of here  
Cool running yeah

Oh doctor man I hope relief soon come  
Cool running yeah  
Sometimes the best prescription is to run  
Cool running yeah

Ooh ooh hoo hoo hoo
