Special Friends

Joe

I gotta find, I gotta find a special friend
A little bit of sexiness
That's all I need
Someone I can kick it with (oh)
Won't put no pressure on me
And when the rain comes fallin' down
Will you be there for me
I need a whole lot of loyalty
I need you down on my team
You see
I been through too much drama in my life
You see

Every chick so far's been wasted time
You see
I need someone so special in my life
I need that special friend
Gonna search around the... world
'Til I find that... girl
New York, Georgia, Cali 'cross the water
Gonna find my baby... girl
Precious like a... pearl
I need a very special friend
(Very very very very special friend)
To be my baby girl to the very end
