And Life Begins

Shakra

Look at the children
And see those hopeful eyes
Look at your brother
A friend for all your lifeAll these people here around me
I'm lovin' more and more
Now I understand what we're livin' forLike an eagle in the sky
Spread my wings and fly
And I'm sailin' on the wind
My eyes won't miss a thing
And life beginsLook at the valleys
Flowers everywhere
Look at the mountains
So proud they're standing thereAll those precious real creations
I've never seen before
Now I understand what we're livin' forLike an eagle in the sky
Spread my wings and fly
And I'm sailin' on the wind
My eyes won't miss a thingLike an eagle in the sky
Spread my wings and fly
And I'm ridin' on the wind
And a new life beginsWhen the rain is fallin'
And the end is not in sight
I just spread my wings and fly again
To the rainbow in the sky
