Look Up

7 Blue Skies

Your friends hold the lullabys
They watch the way the night lies
Soft sounds, heads like a radio
Hearts wrapped in blankets, laying low
Hearts wrapped in blankets, laying lowYou're cold, maybe you just miss the sun
You fall feeling like it's just begun
So far keeping it together's been enough
Look up the rain is falling
Looks like loveYour boy is like a memory
With some sense of touch and a melody
Your girl she's a renegade
A hurricane that keeps you there, safe
Hurricane that keeps you there, safeYou're cold maybe you just miss the sun
You fall feeling like it's just begun
So far keeping it together's been enough
But look up the rain is falling
Looks like loveYou're cold maybe you just miss the sun
You fall feeling like it's just begun
So far keeping it together's been enough
But look up the rain is falling
Looks like loveYou're cold maybe you just miss the sun
You fall feeling like it's just begun
So far keeping it together's been enough
But look up the rain is falling
Looks like love
Rain is falling
Looks like love
Rain is falling
Looks like love
Rain is falling
Looks like love
