Falling Away

Milosh

You're not in love with me
I'm in love with you
You barely even noticed
What's good about meSo I'll keep on tapping my way
This song as my cane
For someone who dares
Take on this man inside of me
You could hardly seeFalling awaySo I'll keep on swimming my way
Through that pitch black part of me
Singing this tongue tied and twisted melody
There you go falling into that sea of peopleFalling awayYou're falling away
It's gone without a trace
I'm singing love songs againYou're falling away
Those dark streets inside of me
How further can they beNow I can finally see
That pretty seed inside of me
The one thing I need inside of meAnd that beast ingrained in me
Is bursting to see
What you and I can beYou're falling away
