

# Falling Away

Milosh

You're not in love with me  
I'm in love with you  
You barely even noticed  
What's good about me So I'll keep on tapping my way  
This song as my cane  
For someone who dares  
Take on this man inside of me  
You could hardly see Falling away So I'll keep on swimming my way  
Through that pitch black part of me  
Singing this tongue tied and twisted melody  
There you go falling into that sea of people Falling away You're falling away  
It's gone without a trace  
I'm singing love songs again You're falling away  
Those dark streets inside of me  
How further can they be Now I can finally see  
That pretty seed inside of me  
The one thing I need inside of me And that beast ingrained in me  
Is bursting to see  
What you and I can be You're falling away
