

# Man Overboard

## Far

Open Areas

Was the name of the book  
He never, never, never wrote Man overboard, man overboard  
Man overboard We paved the roads  
We really blanketed everything  
We never, never, never wrote He tried the West  
He really studied the signs  
He never, never, never wrote  
He never, never wrote Man overboard, man overboard  
Man overboard Man overboard, man overboard  
Man overboard, man overboard  
Man overboard We paved the roads  
We really blanketed everything  
We never, never, never wrote We never, never wrote  
We never, never wrote  
We never, never wrote
