

Edge

HAIM

I was always running, always hurt
But I couldn't let it go, it was too hard to get going
And I kept hoping that you would run first
I couldn't let it go, you were too good to know me You were my own
Then all this hope
They're over grown But now I know
There's no climbing over
Because I know you'll never see me Well, I can feel my all sit down with me
Feeling like the sun setting on the sea
It's getting to the edge of the world, could be
I can't fight it off, I can't fight it off Oh, you know you could've had it all
But you want me like your crown
And it seemed your favorite thing to do
Was to keep me in the dark and turned around You can say I'm crazy for giving up
You can wave your saying like a flag
You can wave high over your head
You can sing this song to bring me again You were my own
Then all this hope
They're over grown Moments of the past
I did too much to bring us back Well, I can feel my all sit down with me
Feeling like the sun setting on the sea
It's getting to the edge of the world, could be
I can't fight it off, I can't fight it off Well, I can feel my all sit down with me
Feeling like the sun setting on the sea
It's getting to the edge of the world, could be
I can't fight it off, I can't fight it off No, I can't, no, I can't fight it off
No, I can't, no, I can't fight it off
No, I can't, no, I can't fight it off
Over and over, over and over No, I can't, no, I can't fight it off
No, I can't, no, I can't fight it off
No, I can't, no, I can't fight it off
Over and over, over and over Well, I can feel my all sit down with me
Feeling like the sun setting on the sea
It's getting to the edge of the world, could be
I can't fight it off, I can't fight it off Edge of what could be
Edge of what could be
Edge of what could be
Edge of what could be
Edge of what could be

Edge of what could be
