Air & Angels

Alisha's Attic

You say phone me every day or I might forget you
I'm Aquarius, you know we've got that way about us
And don't smile like that pretty, it doesn't flatter you
A kaleidoscopic fight, all fits and sparks
And I am not scared of you now
Schizophrenic chick like a shark ate your ego
And I'm home with myself, I don't need you
I float with the air and angels
(La la la)
Now I'm free
(La la la)
I float with the air and angels
(La la la)
Now I'm free
(La la la)
I float with the air and angels
You say, "Dry your fake tears" and
"Paint your chipped blue nails"
I've got too many imperfections
And a thousand more secrets
(Yeah)
To keep or tell depending on how drunk I get
On a lonely night I can confess all
But you're better off with some other Miss. Perfect
Who doesn't fuss or fight and
Who doesn't have a dark side
But I'm just doing fine I've found myself
I don't care about you
I float with the air and angels
(La la la)
And now I'm free
(La la la)
I float with the air and angels
(La la la)
And now I'm free
(La la la)
I float with the air and angels
Schizophrenic chick like a shark ate your ego
She ain't playing your game

(I float with the air and angels)
I don't need you, I don't want you
It's a shame
I float with the air and angels
(La la la)
And now I'm free
(La la la)
I float with the air and angels
(La la la)
Now I'm free
(La la la)
I, I float with the air and angels
(La la la)
There's nothing you can say to me
(La la la)
'Cos I'm over and above you, baby
(La la la)
There's nothing you can say to me
Nothing you can say to me
(La la la)
'Cos I'm over and above you, baby
I float with the air
(La la la)
I float with the air
I float with the air
(La la la)
I float with the air and angels
(La la la)
I float with the air and angels
(La la la)
I, I float with the air and angels
(La la la)
I float with the air and angels
(La la la)
I float with the air and angels
(La la la)
