

# Break the Ice

## Accept

Day after day  
I'm beginning to realize  
The torture and pain  
Are we going insane Our vibrations  
May be the push we need  
We're restless at heart burnin' inside  
Throwing it all away There's a message in our life  
It makes me wonder why  
There's a vibe we can't deny That's why we must  
Break the ice  
Leave all the rest behind  
Break the ice  
And try in a way to hold on and stay  
Break the ice  
We know we can't deny  
Break the ice  
By taking the chance we're breakin' away We gotta follow the lead  
It's all part of the give and take  
Where anything goes  
Our spirits will shine I won't be long  
Before we realize  
That we've given in  
To the power of love, yes we do There's a message in our life  
It makes me wonder why  
There's a vibe we can't deny That's why we must  
Break the ice  
Leave all the rest behind  
Break the ice  
We're throwing away what more can I say  
Break the ice  
Leave it all behind  
Break the ice It doesn't help to cry  
No need to wonder why  
We hold it all in hand  
Needless to say  
Needless to say Break the ice, ice  
We must  
Break the ice  
Leave all the rest behind

Break the ice  
And try in our way to hold on and stay We must  
Break the ice  
We know we can't deny  
Break the ice  
By takin' a chance we're breaking away Break the ice
