Hylas

Thomas Azier

She's on the run
Yellow flowers in her hair
The pressure is gone
'Cause she's got only the skin to shareShe guides my way
To find a trace
Through the forest we run
And through the forest we runShe pulls me down with her eyes
Into the water we slideShe knows it's her that I want
She can see through my deepest dreams
My eyes on the hunt
I want to see her naked skinShe guides my way
To find a trace
Through the forest we run
And through the forest we runThey told me only to breathe
They told me only to breathe
She pulls me down, with her eyes
Into the water we slide
Into the water we slide
She grabs my hands, we ignite
Into the water we slide
Into the water we slideShe pulls me down with her eyes
Into the water we slide
