

Same Old Story

South

Same old story
In time for a warning
I'm gonna turn around
You'll be gone, a nice little goodbye songbird
Unheard, your precious light, your precious light will shine
Don't make me wait
Now that I have come of age
Stranger today
Your precious light will come my way
I was not in for much
May be lost but I've been touched
Watch over me, let me be
