On the Sun

Moon Hooch

I'm on the sun, we're frozen
And in between there's nothing
Fake ocean lands
Breathe deeply
It's just a game, we're dreamers

The stars above our bodies
That speak to me in silence
They show me where I'm going
They lead me through the darkness

Down we're going, run right on
Turn around
Act like we're breathing
We're shaking our bones to rounds
