

# Colder Than My Heart If You Can Imagine

## A Day to Remember

Don't point your finger baby  
This isn't the best time for you to test me  
"This wasn't just anyone here" she said  
If it wasn't you, it's someone you would lie for  
Tell me, who would you lie for? Let's live the lie  
I'm still singing "Whoa" (Whoaa)  
Don't say you won't let it go  
'Cause you'll never know  
(You'll never know)  
I'm still singing "Whoa" (Whoaa)  
Don't say you won't let it go  
'Cause you'll never know Don't be so quick to blame a friend  
When the smoke is cleared, there'll be nobody left  
"Don't be so sure of yourself" he said  
If this was me, he would never know your name  
(Never know your name)  
Heart means everything Let's live the lie  
I'm still singing "Whoa" (Whoaa)  
Don't say you won't let it go  
'Cause you'll never know  
(You'll never know)  
I'm still singing "Whoa" (Whoaa)  
Don't say you won't let it go  
'Cause you'll never know I'm alright with being a thief  
I'm alright with being a thief From the top of the world  
We'll let them know  
That your biggest fear is letting go  
From the top of the world  
We'll let them know  
That your biggest fear is letting go I'm still singing "Whoa"  
Don't say you won't let it go  
'Cause you'll never know  
(You'll never know)  
I'm still singing "Whoa" (Whoaa)  
Don't say you won't let it go  
'Cause you'll never know
