

Friend

C418

Three two one four five six seven eight
You can't tell me why I make your hate
Five four four eight two one seven nine
You love me and the break looks fine
Four five seven eight nine ten nine four
You are hungry and I'm poor
Two four six nine two one four
You say I'm a (friend)But you aren't my friend x4
You aren't my friend
But you aren't my friendFour five six one two three four two
I affect whatever you do
One nine nine nine nine nine five two
I know all the ways that you go through
Four four one seven ten nine four
I don't really like what you stand for
Two four six nine two one four
You used to, you're my (friend)But you aren't my friend x4
You aren't my friend
But you aren't my friendYou told me how I'd be cared for
Despite the fact now you saw my score
After all the yawning you have put me through
You really thought I've been liking you
Go away and never see me again
Please, go away and never see me again
I can never ever be your friend
You used to, my (friend)But you aren't my friend x11
You aren't my friend x3
