

# Sister

## Madrugada

Sister

We're so lucky

We came from love and we take in with

It's passing on like nobody business

Sing this song so the world can meet

My sister You're so pretty

You don't know that some times

Don't you far for sun line

The best of all isn't good enough

For my sister

Change or never change

And you will stay the same to me

Change or never change

And i will keep your place

And i will be your biggest fan

cause i will know where you began

And you don't have to do anything

Just be my sister You'll be happy

Finding love and taking hold

And all you touch will turn to gold

There is so much i want for you

My sister Find you city

I'll be here when you get home

And i'll hear what you became

And you don't have to do anything

Just be my sister

Stay or go away

And i'll be right here for you

Stay or go away

And i'll keep your place

And i'll see you as you were

But i'll love as you are

And you don't have to do anything Change or never change

And i will stay the same for you

Change or never change

And i will keep your place

And will be your biggest fan

cause i will know where you began

And you don't have to do anything

Just be my sister We're so lucky  
We came from love and we take in with  
It's passing on like nobody business  
Sing this song so the world can meet  
My sister
