Amber

Electric Guest

Amber, What will become
I see the fire
You call the sun
Amber, youre just a child
Dressed like a father
without the smile
Amber, they broke the vow
hoping to hold you
Forgotten how
Amber, Amber, Amber
Piece of the whole
The light thats inside of you
Is starting to glow
Amber, Amber, Amber,
The only thing we know
Everyone waits for calling, oh
Amber, Amber, Amber
We all will have to go
even when life is falling, no
Amber, when will you tire?
Poor sun and limbs
may break the wire
Amber,
(Amber)
I hear the sea
Storming inside you
Unspoken plead
Amber
(Amber)
The blue above
(above)
Side press and elm
and certain numb
Amber, Amber, Amber
Piece of the whole
The light thats inside of you
Is starting to show
(ooo)
The day, you gave it all away,

(oh)
So a wake could come oh oh oh.
Amber, Amber, Amber
The only thing we know
Everyone wants to call you (oh)
Amber, Amber, Amber
We all will have to go
even when life is falling (no)
The only thing we know
We all will have to go
Amber, Amber, Amber
everyone waits to call you. (oh)
