## No Joy

Our love in spades  
We are the real ones  
A gang of rays united  
But people change  
Who could blame you  
You had a plan  
You always did Somebody's older now  
Change but i don't know how  
Our lives in fades  
Talking seldom  
Quick hellos and checking ins  
This change it stays  
And that's okay now  
You wanted things  
I never did
