Little Did They Know

Jesse Royal

some say knowledge is the wise man tool
but its a burden to the fool
so many hate misplaced, cause the money dem a chase
physically free, psychological enslaved

A Little did they know
That everything that gliters arent gold
my childrem are practcing self control
the other off, still yet to be told

the biggest criminals contitute parlament
so dont take money or favors from them
they offer no solution but cause the problem
i cant find the words to trully describe them
