## **Footsteps**

## **Alison Moyet**

It won't be clean and easy
There's more to carry than a case or two
I come with a history

That I won't forget in a life with youThis man's been true to me

And I didn't come by him easy

Shame, shame crying shame

Losing more than a family nameDon't let your footsteps falter You're gonna get wet if you dip in the water

Be sure what you take me for

And I won't ever want for moreDon't let your footsteps fail me You're gonna get sunk if you slip on the way

When I say that the time is right

Go walk this mother out of sightI didn't plan to meet you

Now here I am on a roundabout

See the road where I lived my life

If I go with you there's no turning backI'm tired and I ain't proud
But I want you more than I ever have

Tell me baby

Did you think about it?It won't be young and pretty

Look around you, you know it

Ain't nothing new for me

I don't get fooled so easyWhat's good ain't gonna be fine

Six months on down the line

You know shame, shame crying shame

Losing more than a family nameDon't let your footstep falter

You're gonna get wet if you dip in the water

Be sure what you take me for

And I won't ever want for moreDon't let your footsteps fail me

You're gonna get sunk if you slip on the way

When I say that the time is right

Go walk this mother out of sight Yeah, yeah, yeah, yeah, yeah

Don't let your footsteps falter

You're gonna get wet if you dip in the water

Be sure what you take me for

And I won't ever want for moreDon't let your footsteps fail me

You're gonna get sunk if you slip on the way

When I say that the time is right

Go walk this mother out of sightOh, have you found it?

Did you find what you're looking for?

You know you change your mind
And it's a waste of time
And heaven only knows
You'll be on your ownDon't let your footsteps falter
You're gonna get wet if you dip in the water
Be sure what you take me for
And I won't ever want for moreDon't let your footsteps fail me
You're gonna get sunk if you slip on the way
When I say that the time is right
Go walk this mother out of sight
