

# A Season In Green

## Beseech

And a thought came sealing down  
Imagination of you and I  
so much depression by losing you  
a new beginning without grief[Chorus]  
Painfully a season in green came  
and our home went up in grief  
someone came to bring us the message  
saying that there  
is nothing to doDo you have name my child  
maybe that day something died  
where are you now cold in a cage  
try to be patient, here I come[Chorus]
