

# Right Now

## Babes in Toyland

Pray the one my soul to keep  
Servants' service, too scared to sleep  
Because of the creep, scarred surfaceIn the right nowWhen I'm next to your head, I see  
White heaven's presence, mother dying  
All of the time, my sicknessIn the right now, we'll take you  
We'll take all of you in the right now
