

I Miss You (it's Weird That You Don't Notice)

[Nikki Cleary](#)

I...I...I...
I...I...I...Saw you yesterday
We were talking
Comparing notes
What's happening, what's not
What you wanted, what you gotNow you're on your way
It's all about that
And nothing else
I feel like I'm small
And I don't matter in that worldIf I try to tell you
Would you laugh in my face?
Tell me to grow up
When I come clean and say...I miss you
The way we use to be
Back when you were callin' me
Every day, yeah
You wanted to come over
I miss you
But it's different and its strange
Now that everything's changed
And it scares me cause
Its weird that you don't notice
I miss you
I...I...I..
Yes I do
I...I...I...Maybe its just me
But I don't think so
I'm not insecure,
I just know what's real,
What is gone, and what I feelI remember when
We use to say that
We'd never change
Forget where we've been
I wanna go there againIf I tried to tell you,
You turned into that kind
Would you put your defense
Say I was losing my mindI miss you
The way we use to be
Back when you were callin' me

Every day, yeah
You wanted to get closer
I miss you
But its different and its strange
Now that everything's changed
And it scares me cause its weird that you don't notice
Don't you ever see my face outside your window?
Are you up so high you can't get back around?
Will you think of me some night when you get lonely?
Or will you need me when you're on your way down?
Saw you yesterday
We were talking
Comparing notes
What's happening, what's not
What you wanted, what you got
I miss you
The way we use to be
Back when you were calling me
Every day, yeah
You wanted to come over
I miss you
But its different and its strange
Now that everything's changed
And it scares me cause its weird that you don't notice
I miss you
The way we use to be
Back when you were calling me
Every day, yeah
You wanted to get closer
I miss you
But its different and its strange
Nothing stays the same
And it scares me cause its weird that you don't notice
I miss you
I...I...I...
I miss you
I...I...I...
Yes I do
I miss you
