

# Hurt Myself

Pam Tillis

Ain't tried cigarettes  
There is always alcohol  
I could stay up all night long  
Don't need to sleep at all I've got credit cards  
I could run 'em up  
I could play with knives  
I could drink and drive And if that ain't enough If I need another way to hurt myself  
If I really miss the heartache  
If I wanna hear some empty promises  
If I really need the pain  
I know where to find you  
If I need another way to hurt myself I've got memories  
I could dig 'em up  
I could play a losing head  
Just to try my luck Go out every night  
Find someone to love  
I could walk the wire  
I could play with fire And if that ain't enough If I need another way to hurt myself  
If I really miss the heartache  
If I wanna hear some empty promises  
If I really need the pain  
I know where to find you  
If I need another way to hurt myself And if I wanna love somebody  
Who wants me to be somebody else  
Well, I know where to find you  
If I need another way to hurt myself  
Ain't tried cigarettes  
There's always alcohol
