Turn Round

Ace Troubleshooter

Turn round and I will press your hand
If you will put our hands together now
Turn round, don't stir under my gaze
And you will hold my gaze forever nowNow you know it, girl please don't run
So turn round, turn round
It's not over, it's just begun
So turn round, turn roundTurn round and watch the shooting stars
And we'll name all the stars together
Turn round and stay a while, stay
Enchantress say you'll stay forever nowNow you know it, girl please don't run
So turn round, turn round
It's not over, it's just begun
So turn round, turn roundTurn round, turn round
And turning round be mine
Turn round, turn round
And turning round be mineTurn round, turn round
And turning round be mine
Turn round, turn roundTurn round, turn round
And turning round be mine
Turn round, turn round
And turning round be mineNow you know it, girl please don't run
So turn round, turn round
It's not over, it's just begun
So turn round, girl turn round
