Love You Here

Sebadoh

No there's not a lot I need
But, yea, I'm gonna need that too
Put it on my
Fault line
On our ownLucky we could stay this long
Lucky, have to fight for it
Got to keep on keeping calm
And hang onI work and I'm away
And the lonely breeds a new
A new way to complicate
The simple things we do
I love you here but i can't be there toA day at home is real unreal
Beautiful like a baby girl
Then a family needs me
Home
But I'm gone
