Why

D.H.T.

Talk outside early in the morning
In the cold standing on my own
I feel lost don't know where I'm going
With out you I'm all aloneWhere are you and God why did you leave me?
You were the one to fill my life
Suddenly I can never see you
Don't wave without goodbyeWhy tell me why
What I want is another chance to show you that I love you
That I need you
Cause I want you by my side
Why tell me why
What I want is another chance to show you that I love you
That I need you
Cause I want you by my sideMiss you up all the things about you
I wish that I could turn back time
Your soft touch all over my body
Just one thing is on my mindWhere are you and God why did I loose you?
You were the one to fill my life
Suddenly I can never see you
Don't wave without goodbyeWhy tell me why
What I want is another chance to show you that I love you
That I need you
Cause I want you by my side
Why tell me why
What I want is another chance to show you that I love you
That I need you
Cause I want you by my sideWhy tell me why
What I want is another chance to show you that I love you
That I need you
Cause I want you by my side
Why tell me why
What I want is another chance to show you that I love you
That I need you
Cause I want you by my side
Why?
